

# Jersey Front / Back Verification

Browser-tested implementation evidence | 18 June 2026

## Implementation verified

ALL CHECKS PASSED

The team name is constrained to the **front chest only**. The back torso and back neck remain free of team names, player names, numbers, letters, logos, monograms, and watermarks. Player personalization controls are intentionally unavailable until the dedicated back workflow is implemented.

Live Gemini Flash texture generation completed

Team name visible on front chest

Back torso and neck visually blank of typography

Player name and number controls absent

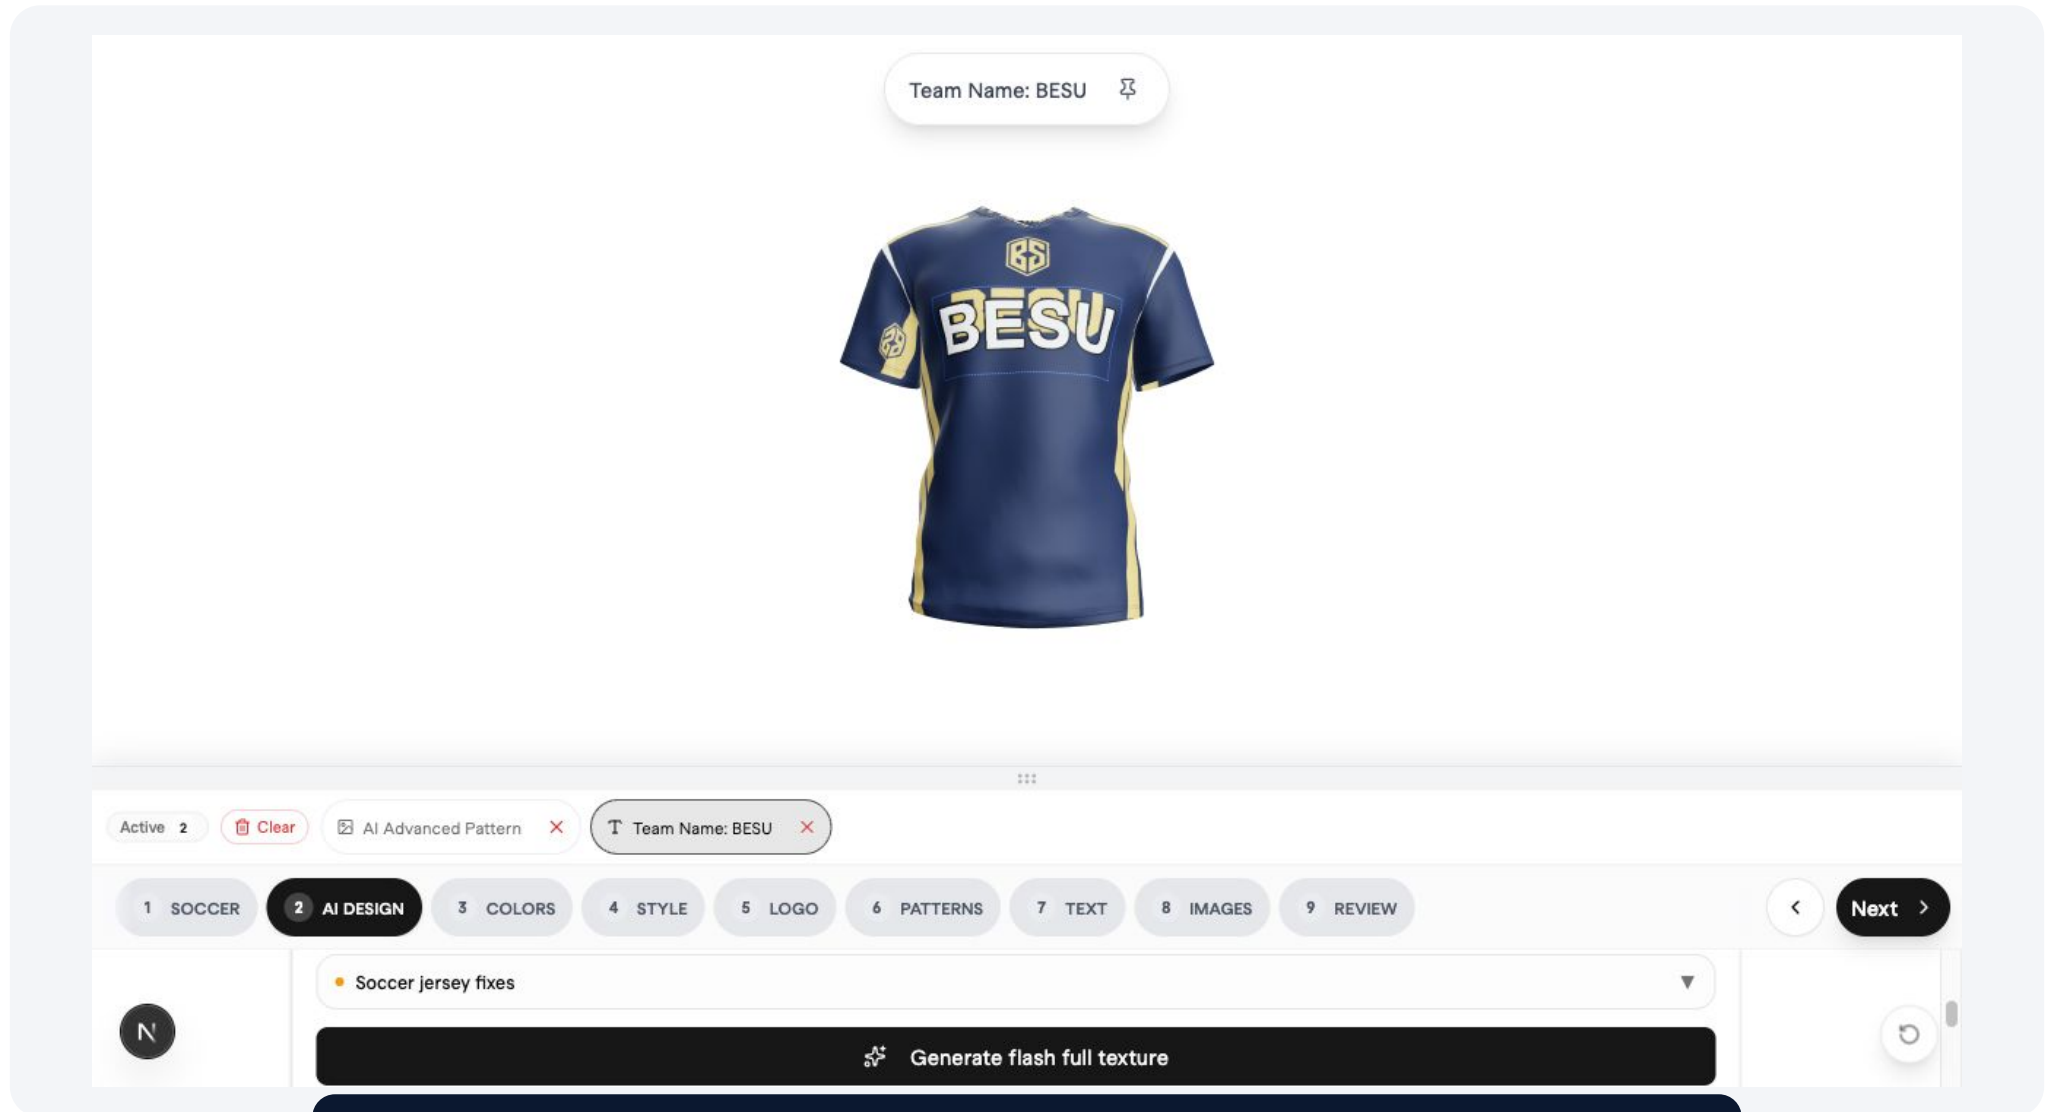

Zero browser console errors

TypeScript and production build passed

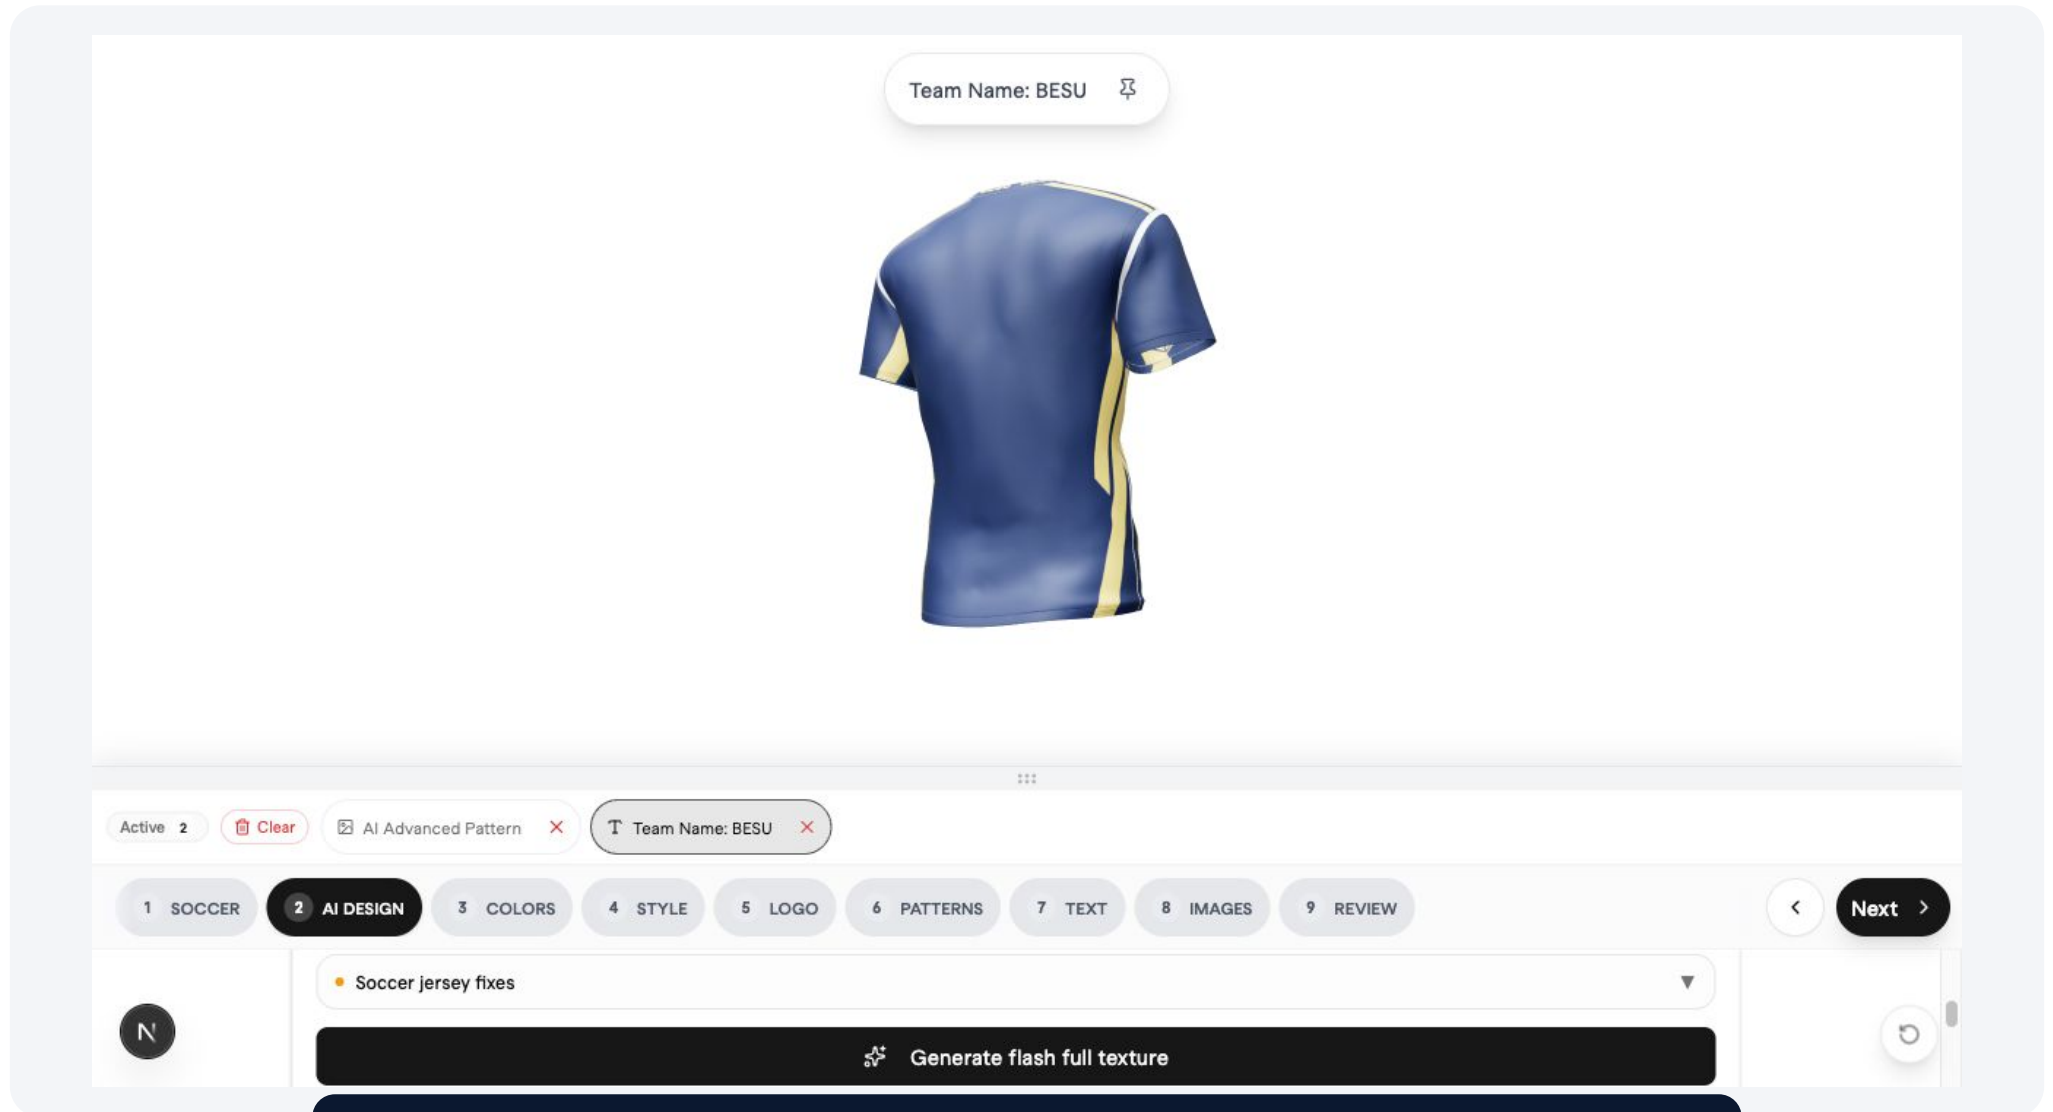

# Front View Evidence

Generated soccer jersey - navy and gold BESU test design

# Back View Evidence

Same generated design rotated to the rear in the live 3D viewport

**PASS:** Back torso and back neck contain no name, number, logo, or lettering.
